

NEWCOURTLAND
Germantown Home

For Seniors Who Require Short-term Rehabilitation...

CONSIDER GERMANTOWN HOME

If you have a patient who is recovering from an accident, stroke, illness, joint replacement surgery, please reach out to Germantown Home. Germantown Home is a 180-bed nursing home in the heart of historic Germantown. The goal is to get them stronger and provide them with the tools to remain safe in their own home and return to health and well-being as quickly as possible.

Some of the benefits and services they will receive during their stay include:

- Evaluation within 24 hours that will include individual goals for a safe return home.
- Discharge planning on day 1 as well as a home assessment to address individual needs and completion of tasks required for a successful discharge home.
- Care plan discussion surrounding specific needs.
- Skilled therapy services (up to 7 days/week therapy program offered if appropriate). Services will be provided in a variety of ways including: Individualized sessions, Group sessions as well as Concurrent sessions.
- Custom caregiver education, medication management assistance, and literacy materials tailored around your specific needs.
